ERRATA

TO: ALL-COUNTY WELFARE DIRECTORS

SUBJECT: CORRECTION TO ALL-COUNTY LETTER 91-38

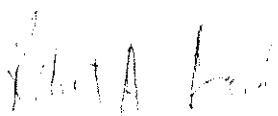

REFERENCE: ACL #91-38 DATED MAY 13, 1991

The purpose of this errata is to correct a section of the above mentioned ACL which transmitted the Memorandum of Understanding (MOU) between the Department of Social Services (DSS) and the Department of Health Services (DHS) regarding programs offered through the DHS Office of AIDS (OA) which have IHSS impact. A revision is being made for the description of one of the home and community-based service programs available to qualified individuals with AIDS or ARC.

Specifically, page 2 of the ACL, in the last sentence of the third paragraph discussing the Case Management, Home and Community Based Care (CHC) Program, states that "individuals with AIDS or ARC receiving these services must be below the intermediate level of care." Likewise, this phrase also appears on the sixth line of page two of the MOU itself.

Individuals must have a diagnosis of AIDS or ARC but are not required to be below the intermediate level of care. Participants of these programs may be at any level of care as long as it is safe for them to remain in their home, or Residential AIDS Shelter (RAS), and receive services from outside health and social service agencies.

Accordingly, Counties are being instructed to delete the last sentence of the above mentioned paragraph from the ACL concerning the CHC Program. If you have any questions, please contact Rosa Estes of the Adult Services Branch at (916) 657-2157.

  
Robert A. Barton, Chief  
Adult Services Branch

ALL-COUNTY LETTER NO. 91-38

TO: ALL-COUNTY WELFARE DIRECTORS

SUBJECT: MEMORANDUM OF UNDERSTANDING REGARDING IN-HOME  
SUPPORTIVE SERVICES PROVIDED TO PARTICIPANTS IN OFFICE  
OF AIDS PROGRAMS

This All-County Letter (ACL) supercedes the May 17, 1989 ACL #89-44 regarding the Medi-Cal Waiver (Waiver) for programs serving individuals with Acquired Immune Deficiency Syndrome (AIDS) or AIDS Related Complex (ARC). ACL #89-44 referred to the Memorandum of Understanding (MOU) between the State Department of Social Services (SDSS), In-Home Supportive Services (IHSS) and the State Department of Health Services (SDHS), Office of AIDS (OA).

As previously explained in ACL #89-44, Federal approval has been received for a Waiver to provide home and community-based services to Medi-Cal recipients with AIDS or ARC who would otherwise require the level of care provided in an acute, skilled nursing facility (SNF) or intermediate care facility (ICF), the cost of which would be reimbursed under the State Medicaid Plan. This Waiver allows the Medi-Cal Program to reimburse several services under the California AIDS Program (CAP) Division 1, Part 1, Chapter 1.16 of the Health and Safety Code, which can be provided in the home or residential setting to enable the Medi-Cal recipient to remain at home. Home Attendant and Homemaker Care are two of the services which will be reimburseable under the Waiver Program.

The updated and revised MOU assures that services available under the AIDS Waiver Program (AWP), the Case Management, Home and Community Based Care (CHC) Program, and the Residential AIDS Shelter (RAS) Program supplement those available through IHSS. The agreement stipulates that in the administration of the IHSS Program, Counties are not to apply Manual of Policies and Procedures Section 30-763.3 in relation to services provided to eligible IHSS recipients with the diagnosis of AIDS or ARC. That is, services provided under the AWP, the CHC, and the RAS programs, described below, are not to be treated as "alternative resources" for the IHSS recipient. IHSS benefits are not to be denied nor reduced because an individual is eligible for or is receiving services under these programs.

Authority for this waiver of regulations is given by Section 199.78(b) of the Health and Safety Code for community based services provided under the CAP (AB 2892, Chapter 1555, Statutes of 1988). The section states that "To the extent that federal financial participation is available, departments within the Health & Welfare Agency shall waive regulations and general policies and make resources available when necessary for the provision of home and community-based services to eligible persons with the diagnosis of AIDS or ARC."

The purpose of this letter is to transmit the revised MOU which now includes the CHC and the RAS programs since the original MOU applied only to the Waiver Program. These programs are ranked in the order in which they must be utilized. For example, all authorized IHSS benefits must be exhausted before additional services will be granted and paid for under the AWP, the CHC or the RAS programs. It is also important that funds from other programs are not used to augment IHSS provider wages. The following is a description of each of these AIDS/ARC programs and the services rendered, which are administered by the SDHS, Office of AIDS and which have IHSS impact.

#### CHC Program

Senate Bill 1251 (Chapter 767, Statutes of 1985) permitted the development of the CHC Program. The CHC sites are responsible for case management, and home and community-based care for individuals with AIDS or ARC who either reside in their own homes or who live in a RAS. This includes attendant care (e.g., assistance with bathing, dressing, grooming, ambulation, meal preparation, etc.) under the supervision of a licensed home health agency. Individuals with AIDS or ARC receiving these services must be below the intermediate level of care.

#### AIDS Waiver Program

The AIDS Waiver Unit is responsible for administering a Medicaid Home and Community-Based Care Waiver for Medi-Cal eligible individuals with AIDS or ARC. The program provides for care at home, or in a home-like setting such as a RAS, for individuals with AIDS or ARC who are at or above the intermediate level of care and would otherwise require institutional care. Services provided, with or without IHSS impact, include case management, skilled nursing care, attendant care, psycho-social counseling, homemaker services, minor physical adaptations to the home, Medi-Cal Supplement for infants and foster care children, and non-emergency medical transportation for infants and foster care children.

Residential AIDS Shelters

The RAS' provide housing and food to homeless individuals with AIDS or ARC. As of February 1991, approximately 29 RAS' are operating as pilot projects not subject to health or community care licensing requirements. RAS' provide room and board to residents and are not to directly provide or arrange for personal, medical or nursing care. Because these shelters provide only basic services and are exempt from licensure at this time, the Counties are permitted to authorize IHSS to eligible individuals with AIDS or ARC who reside there. The shelters are intended to provide a home where residents may, if necessary, arrange to receive intermittent home health, social and mental health services until they find other housing or until they require placement in a medical facility.

Also enclosed for your information is a listing of the current CHC, RAS and the Medi-Cal Waiver projects approved through the Office of AIDS. If you have any questions regarding this letter, please contact Ms. Rosa Estes of the Adult Services Branch at (916) 322-6320.

Agreement No. 60007  
DSS/DHS

## MEMORANDUM OF UNDERSTANDING

DEPARTMENT OF SOCIAL SERVICES (DSS)  
AND DEPARTMENT OF HEALTH SERVICES (DHS)

This Memorandum of Understanding (MOU) is entered into by and between the In-Home Supportive Services (IHSS) Program of the Department of Social Services and the Office of AIDS (OA) of the Department of Health Services.

### A. PURPOSE

This MOU formalizes an agreement between DHS and DSS regarding IHSS provided to participants in the AIDS Medi-Cal Waiver (Waiver) Program; the Case Management, Home and Community-Based Care (CHC) Program; and the Residential AIDS Shelter (RAS) Program.

DSS and DHS agree that in the administration of the IHSS Program, County Welfare Departments (CWDs) are not to apply Manual of Policies and Procedures Section 30-763.3 in relation to services provided to eligible persons with the diagnosis of Acquired Immune Deficiency Syndrome (AIDS) or AIDS Related Complex (ARC). Specifically, services provided under the Waiver Program, CHC Program, and RAS Program will not be treated as "alternative resources" for the recipient. IHSS benefits will not be denied nor reduced because an individual is eligible for or is receiving services under these programs.

The intent of the MOU is to insure that eligible individuals with AIDS or ARC have access to a broad range of consistent and quality care options suited to their particular circumstances.

### B. BACKGROUND

On November 14, 1988, Federal approval was received for a Medi-Cal Waiver to provide home and community-based services to Medi-Cal recipients with AIDS or ARC who would otherwise require the level of care provided in an acute, skilled nursing facility or intermediate care facility, the cost of which would be reimbursed under the State Medicaid Plan. This Waiver allows the Medi-Cal Program to reimburse several services which can be provided in the home or residential setting, such as a RAS, to enable the Medi-Cal recipient to remain at home. Home Attendant and Homemaker Care are two of the services which are reimbursable under the Waiver Program.

SB 1251 (Chapter 767, Statutes of 1985) paved the way for the development and implementation of the CHC Program. This program is funded through community support block grants and engages various contractors to provide a comprehensive service system to eligible individuals with a diagnosis of AIDS or ARC who are below the intermediate level of care and reside in their own home or live in a RAS. Services involve basic coordination of care often including the provision of attendant care, i.e., assistance with bathing, dressing, grooming, ambulation, meal preparation, etc.

AB 4448 (Chapter 1526, Statutes of 1988) enabled DHS to approve the development of RAS' to provide housing and food to homeless individuals with AIDS or ARC. As of February 1991, approximately 29 RAS' are operating as pilot projects which are exempt from health or community care licensing requirements until July 1, 1993. RAS' provide room and board to residents and are not to directly provide or arrange for personal, medical or nursing care. Because RAS' provide for very basic needs and are exempt from licensure, IHSS may be authorized for eligible individuals with AIDS or ARC who reside there. The shelters are intended to provide a home where residents may, if necessary, arrange to receive intermittent home health, social and mental health services until they find other housing or until they require placement in a medical facility.

Legislation authorizing the waiver of regulations (AB 2892-Chapter 1555, Statutes of 1988) states that "To the extent that federal financial participation is available, departments within the Health and Welfare Agency shall waive regulations and general policies, and make program resources available when necessary for the provision of home and community-based services to eligible persons with the diagnosis of AIDS or ARC."

C. DSS RESPONSIBILITIES

DSS agrees to provide information about this MOU to CWDs that administer the IHSS Program to enable them to disregard Manual of Policies and Procedures Section 30-763.3 regarding "alternative resources" in assessing IHSS applicants who are also participating in programs offered through the Office of AIDS.

The CWDs will also be informed that they are to permit the granting of IHSS benefits to eligible individuals with AIDS or ARC who reside in the RAS', as these shelters are not subject to licensure at this time.

D. DHS RESPONSIBILITIES

DHS will notify the appropriate County offices and/or contract vendors who administer or implement the Waiver, CHC, or RAS Programs, of the MOU. Additionally, DHS will inform them of the services available through the IHSS Program administered through DSS so that they may be better able to coordinate care for eligible individuals with AIDS or ARC.

E. JOINT RESPONSIBILITIES

It is the responsibility of DSS and DHS to insure that County administered services provided to eligible individuals with AIDS or ARC are coordinated and utilized in the sequence described below.

The Waiver, CHC, and RAS Programs all require that existing resources be fully used before services will be authorized through these programs. Specifically, the Waiver, CHC, and RAS Programs require that support or benefits available to a participant in these programs under (a), (b) and (c) below must be utilized before authorizing benefits under (d) and (e). While benefits from the respective programs are to be part of a continuum, it is important that they be used separately. For example, funds from another program are not to be used to augment IHSS provider wage rates. We hereby affirm that when the same support or benefits are available to a Waiver, CHC, or RAS Program participant from more than one source, said support or benefits shall be used in the following order:

- (a) Informal support of family, friends, and other volunteers.
- (b) Existing services under Title XVI--SSI/SSP and Title XVIII--Medicare.
- (c) Title XX--Social Services (particularly In-Home Supportive Services).
- (d) Services provided through the Case Management, Home and Community-Based Care Program and Residential AIDS Shelters Program.
- (e) Services provided through the AIDS Medi-Cal Waiver Program receiving Waiver funds through Medicaid.

F. FISCAL PROVISIONS

This is a nonfinancial agreement and shall not obligate the appropriation or expenditure of funds by either of the signatory agencies, any CWD, or other local agencies that may be involved.

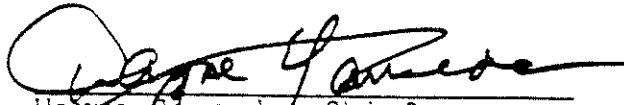

G. GENERAL PROVISIONS

This MOU may be amended at any time by written mutual consent.

H. TERM

This agreement shall be effective on the date this document is signed by the authorized representatives of the Department of Social Services and the Department of Health Services. A review of this agreement shall take place at least every three (3) years between the two parties.
